

# YD-3031

Version: 1.0

Release date: 20180301

**Application:**

YD-3031 is a kind of polyether polyol based on glycerin as an initiator. It is specially developed for the production of flexible polyurethane foams.

**Specification:**

Item	Data	Unit	Standards
appearance	Colorless liquid	-	
OHv	56±2	mgKOH/g	GB/T 12008.3-2009
Viscosity@25℃	520±100	mPa.s	GB/T 12008.7-2010
pH	5-7	-	GB/T 12008.2-2010
Water content	≤0.05	%	GB/T 22313-2008

**Package:**

200kg/drum (galvanized iron bucket).

**Storage:**

Containers should be stored tightly sealed in a dry place and be kept away from foods, animal feeds, acids, oxidant. The temperature recommended for storage is 10 ~ 25℃. For long term storage in tank, nitrogen protection is recommended.

**Shelflife:**

12 months under proper storage.

**Waste disposal:**

Please refer to the "material safety data sheet" or follow local laws and regulations.

The information in this publication is based on our current knowledge and experience. In view of many factors that may affect processing and application of our product, this data does not relieve processors from carrying out any customer's own investigations and tests; neither does this data imply any guarantee of certain properties, or the suitability of the product for a specific purpose. Any descriptions, pictures, data, etc. given herein may change without prior notice and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.
